Betting exchange platform facilitates gamblers with opposing views on the outcome of a sporting event to trade their bets. Managed betting accounts lets sports betting investors to hire experienced tipsters for sports betting investment. Triplay fund opens a new opportunity to invest on sports betting.

Introduction

About the Founder

Mr Jose Giammanco (1973). Graduated in Electronic and Computer Engineering (1999). Accumulates more than sixteen years' experience on Predictive Statistics Analysis and Fuzzy Logic applied to Financial Markets and Sports Betting industries.

Giammanco developed a Sports Betting Investment System (aka Triplay System) published from 2016 on social media and later from www.TriplaySystem.com

A winner investment system

With a small base of Spanish spoken clients and followers from Spain, Mexico, Colombia, Peru, Dominican Republic, Venezuela and other countries the Triplay System has been gained the confidence of a small community that supports the continuity of the Triplay System by a monthly or yearly subscription to www.TriplaySystem.com

On 2017 Triplay System generated a return of investment by 571% as published at <http://triplaysystem.com/pdf/2017-triplay-system-report.pdf>

Triplay System continues generating large profits in 2018 as record on <http://triplaysystem.com/record.php>

TRIPLAY LTD

On January 2018, Triplay Ltd was incorporated at Belize to obtain a juridical personality whom will own and manage the TRIPLAY Project, developed by its CEO & Founder Mr Giammanco.

TRIPLAY PROJECT

“TRIPLAY was developed to provide an all-in-one platform for both gamblers and investors.

Gamblers from anywhere will find on TRIPLAY a world-class sports betting and exchange platform they can access with local money with the security of the blockchain technology on a lower cost, quick and easy to use peer-to-peer exchange platform.

Investors will find on TRIPLAY a crypto asset focused on one of the most widely market of the world: the sports betting industry. People can hold TRIPLAY coins and wait to see how the value grows with the coming use of the coin within the biggest entertainment industry of the world and will have the opportunity to let experienced money managers to invest their assets on sports betting managed account or on hedge fund”

Jose Giammanco
CEO & Founder
Triplay Ltd.

About the blockchain

Triplay token was created under the Waves Blockchain (<https://wavesplatform.com>) to approach their advantages as follow:

- a) The Waves platform does provide a secure and easy to use interface for the storage, management and exchange of our digital asset.

- b) Lower cost and fixed fee per each transaction that not depend on the size of the transaction will keep reduced the operational cost of our company.

- c) Higher velocity to complete the transactions will be traduced on a better user experience for our customers.

- d) National currencies transfer is maintained on the WAVES blockchain through compliant gateway operators.

About Triplay token

Triplay token is 100% mined with a total supply of 100,000,000 (one hundred million) units. Each Triplay unit is divisible in up to eight decimals.

Mirroring the standard Le Système International d'Unités, this allows for divisions of 1/10th (deci-triplays, dTPY), 1/100th (centi-triplays, cTPY), 1/1 000th (milli-triplays, mTPY), and 1/1 000 000 (micro-triplays, μ TPY).

It was adopted the practice of referring to the micro-triplay metric sub-unit as "Bits" and de 10^{-8} sub-unit as Goal.

Unit	Abbreviation	Decimal Value (TPY)	Alernate Name
Maximun		100.000.000,00000000	
Mega-Triplay	MTPY	1.000.000	
Kilo-Triplay	kTPY	1.000	
Hecto-Triplay	hTPY	100	
Deca-Triplay	daTPY	10	
Triplay	TPY	1	
Deci-Triplay	dTPY	0,1	
Centi-Triplay	cTPY	0,01	
Mili-Triplay	mTPY	0,001	
Micro-Triplay	μ TPY	0,000001	Bit
		0.00000001	Goal / Gol

About Supply Distribution

5% of total supply reserved for token presale

10% reserved for external advisors

10% reserved for development team

35% reserved for participation on exchange platforms

45% reserved for project operations

About the TRIPLAY Wallet

A proprietary wallet to let our customer storage, manage and exchange Triplay coins will be developed to facilitate our customers the management of digital assets.

Decentralized Exchange Platform of Waves will be also available inside the TRIPLAY Wallet.

About the TRIPLAY P2P Exchange

Clients can deposit and withdraw local currency to and from the Triplay P2P Exchange. Customers can also send and receive Triplay coin payments instantly and for free to and from anyone in the world.

To make a deposit, just enter the amount of local currency or cryptocurrency you want to exchange for Triplay coins.

Triplay P2P Exchange matches you with a trustworthy cashier who earns a small commission for completing your transaction. We debit the Triplay coins from the Cashier's Triplay P2P account as soon as he or she accepts the transactions and hold de Triplay coins in your name to ensure that everything goes smoothly.

You send the cashier the correct amount of money via local bank transfer or any cryptocurrency and we release the Triplay coins to your Wallet account.

It's that easy.

To withdraw in local currency or any cryptocurrency, just hit the withdraw button, enter the amount of local currency or cryptocurrency you want to withdraw for.

We will match you with a verified local cashier who will pay you in local currency or cryptocurrency in exchange for sending your Triplay coins to his/her Triplay P2P account.

Send and receive Triplay coins instantly and for free.

With your Triplay P2P account you can send Triplay coins to anyone and you can receive Triplay coins from anyone too.

Your money will be in the cloud and you will cash it when you need it.

About Betting Exchange Platform

Individual account

Sports betting investors will be able to place their bets (i.e. the bets related with the betting tips provided by Triplay System) on the Triplay BEX.

The Betting Exchange Platform (Triplay BEX) will connect gamblers with opposing views on the outcome of a sporting event.

The main differences between Triplay BEX and traditional bookmakers are:

a) The customer will not bet against Triplay BEX. It simply will connect gamblers with opposing views on the outcome of a sporting event. It will only accept a bet if it is matched by another customer and it uses technology to match bets instantaneously. If the bet is large then it is likely that it will be matched with multiple counterparties.

b) Triplay BEX will be a no-risk "bookmaker". It will make a guaranteed profit by taking a commission from the winner's net winnings. The commission will vary between 2% and 5%.

c) Triplay BEX's business will occur on the internet, using Triplay cryptocurrency.

d) Triplay BEX's odds will be expressed in decimal terms (i.e. 3.0) and not in the traditional way (i.e. 2-1). 3.0 means that for every coin staked you receive a return of 3.0 which includes the coin stake. The decimal equivalent, therefore, of 2-1 is 3.0.

e) Triplay BEX's market will be a free market and the prices are not controlled by any bookmaker.

f) A traditional betting shop sets its own odds and the customer has to shop around among bookmakers to find better value. But Triplay BEX will allow customers to bet against better valued odds set by other gamblers.

g) So one person can place odds on the site and see if other customers are attracted to the wager.

For example Mr Jimmy, from Mexico, might be offering odds of 4.0 on Germany winning the 2018 FIFA World Cup Russia and Mr Titov, from Cyprus, might take the bet.

Mr Titov has effectively on mind: "I don't think Germany will win and I am prepared to pay you if he does."

But Triplay BEX guarantees anonymity so Mr Jimmy will not know the identity of the person whom he is betting against, and vice versa.

In order to use Triplay BEX and place bets punters must first open an account by registering with the company.

Customers are given a username and a secure password.

Each customer must deposit sufficient funds (Triplay coins) to cover the bets they are offering.

The Triplay BEX's integrated wallet will let the punters to exchange Triplay coins between other crypto actives or deposit Triplay coins from their personal Waves wallet and vice versa.

So, in our example, Mr Jimmy will have to indicate how much he is willing to risk. At odds of 4.0, if Mr Titov is willing to bet 100 coins then Mr Jimmy must have 400 in his account to be able to accept Mr Titov's bet.

Triplay BEX automatically matches punters who want to strike a wager. Mr Titov's bet is accepted and matched with MR Jimmy's bet.

Whoever wins, money is transferred from one account to the other. Triplay BEX earns commission from the winner's takings.

Managed Betting Account

This will be the first time that a betting house opens its doors to professional tipsters to let them manage betting accounts by acting as money managers for their customers.

Mr Giammanco accumulates more than 15 years of experience as money manager and will act as the first tipster in charge of the Managed Betting Accounts on TRIPLAY by investing the winner Triplay System.

More experienced tipsters will be accredited to let sports betting investors decide whom will manage their money.

About Triplay Hedge Fund

Triplay offers a long term limited partnership with investors to take advantage of Triplay System in hopes of realizing large capital gains: Triplay Hedge Fund.

Only investors screened by certificated brokers (institutions) or agents (individuals) will be introduced to the fund for evaluation and acceptance as qualified investors.

Qualified investors will receive 60% of net yearly profits generated by the fund. The balance 40% will be distributed for the payment of management fees and commissions for brokers and agents.

Conclusion

TRIPLAY Platform is being built with a massive adoption in mind from the start. In this general overview we have attempted to show the contributions we intend to provide from the Sports Betting Industry for the benefit of both investors and gamblers with the support of blockchain technology, all in one single user account.
